Dear David,

We both wanted to thank you for building us the home of our dreams. Based upon your reputation, when we contracted with you, we knew we were going to get a great home. We had no idea it would be this nice!! After having lived here for 3 months, it feels as if we are living at a resort. Your attention to every detail makes this home a work of art. We sometimes find ourselves staring at the wood work and other details for hours at a time.

The entire building experience was a joy. All of your sub-contractors were easy to work with and very professional. When the home was complete we were both a little bit sad that the fun was over.

We have had several small parties in our new home and have been told by many that we have the nicest home they have ever been in. It is funny when we give tours that each person seems to have a favorite room in the house. Sometimes it is the library for others it is the kitchen, the Grand room gets lots of great comments, the master bath gets a ton of praise, everyone invites themselves over to watch a movie or a game in the theater room, the bar is a perfect gathering spot, and the pool house is a perfect compliment to the outdoor living space. Men love the garage and several women have refused to leave Colleen's closet!!

Again David, thank you for building such a wonderful home! Feel free to use our name with any client that is considering using you for a new home or remodeling job. We are sure that there are other builders that one can use, but in our opinion, there is only one that can take a dream and build it into reality.

Here's wishing you much continued success and happiness in doing what you love!!

Matt & Colleen Dickon
